B.S. Computer Science (AI) | Minors: Business Analytics & Mathematics | GPA: 3.8 | Dean's List
Relevant Coursework: Data Structures & Algorithms, AI, ML, Data Science, EDA, Python, Calculus 1-3, Statistics 1-2
Clifton Strengths: Relator, Futuristic, Ideation, Strategic, Achiever

TECHNICAL SKILLS

Languages: Python (Pandas, NumPy, Scikit-learn, PyTorch, Matplotlib), SQL, JavaScript, R, MATLAB
BI & Visualization: Tableau, Power BI, Plotly Dash, Airtable, Excel (Advanced, Power Query), Jupyter Notebook
Data Engineering: Snowflake, dbt Core, Airflow, ETL/ELT, Data Modeling, Data Validation, Docker, GitHub Actions
ML & Statistics: Classification, XGBoost, Random Forest, Forecasting, Statistical Modeling, A/B Testing
AI: Generative AI / LLM Tooling, Workflow Automation, AI-Powered Audit Bots, KPI/KRI Metric Design

PROFESSIONAL EXPERIENCE

Digital Accessibility Developer Assistant | Center for Digital Accessibility, USD *Aug 2026 - Present*
- Build automation pipelines that parse and transform unstructured documents using AWS services (Lambda, Textract, Bedrock), streamlining PDF/UA and accessibility validation for enterprise-scale document processing.
- Support development of a cloud-based digital accessibility automation platform, building backend services and REST APIs to help organizations meet WCAG 2.1 AA and ADA Title II compliance standards.
- Develop frontend UI components for a public-facing dashboard and contribute to cloud deployment and CI/CD pipelines, applying AI-supported services to accelerate WCAG compliance testing and reporting.

IT Governance Analyst | The Bancorp Bank, Sioux Falls SD *May 2026 - Aug 2026*
- Supported IT Governance & Compliance across 14 IT departments, defining and standardizing KPI/KRI metrics so every department measured IT health, risk posture, and performance the same way.
- Designed and built executive dashboards that turned multi-source governance data from ServiceNow, Salesforce, and other systems into performance and risk indicators for leadership decision-making.
- Applied Generative AI (LLM-based tooling) to build internal automation tools and audit bots that reduced manual processing time and streamlined IT audit workflows.

Data Analyst & Developer | Coyote Business Consulting - SDMTS *Aug 2025 - Present*
- Designed the database structure and documented every field for a 2,671-record manufacturer database, migrating it from legacy Excel to a cloud-based Airtable platform.
- Wrote data cleaning and validation rules and engineered pipelines that cut manual processing by 70%, feeding the Supply Chain Mapping Tool embedded live on the SDMTS website.
- Built dashboards and reports tracking operational efficiency and regional benchmarks, improving leadership decision-making speed by 45%.

PROJECTS

Public Infrastructure Analytics Pipeline | *Python · dbt Core · Snowflake · Airflow · Tableau* *2026*
Daily pipeline loading federal infrastructure spending for 5 Midwest states from the USAspending API into Snowflake, modeled in dbt as a tested star schema, with GitHub Actions CI/CD, Airflow, and a Tableau dashboard.

Spotify Hit Predictor - End-to-End ML Pipeline | *Python · Pandas · XGBoost · DuckDB · Plotly Dash* *2025*
Layered pipeline moving 114K+ Spotify tracks through raw, clean, and feature stages with SQL in DuckDB, with data quality checks at each stage and full documentation. Feeds an XGBoost hit classifier (84%, AUC 0.91) and a Plotly Dash dashboard.

LEADERSHIP

President (previously Vice President), Indian Student Association, USD *Aug 2023 - Present*
Finance Chair & Senator, Student Government Association, USD *Feb 2025 - Sep 2025*
Brother, Delta Sigma Pi, Alpha Eta Chapter *Nov 2024 - Present*
